

MULTIPOINT ORDER FORM

HYDRO 14-JET AND 20-JET SYSTEMS

HOW TO COMPLETE THIS ORDER FORM

Follow the numbered steps below.

Once completed, fax the form to (02) 9518 0216 or scan and email to sales@bathe.net.au

IMPORTANT CONSIDERATIONS

Pump installation

Pump will not fit completely under the rim of the bath. Pump is supplied detached and must be mounted below top jets and above suction intake to ensure pump primes when bath is filled and drains when bath empties. It is recommended that the pump be located less than 2 metres from the bath. 10 amp supply required.

Pump dimensions

Length 410 mm × Height 245 mm × Width 150 mm.

Control positions

These are determined by Bathe and will not be accepted if marked on this order form unless item 3(ii) applies.

Note: On/Off controls are not able to be rim-mounted on Kaldewei oval-shaped baths and will be supplied detached for remote hob-mounting. In this case, the hob must not be more than 30 mm in thickness or should be rebated underneath.

Overflow

Note: Overflow is normally to front on double-ended designs.

1 Select ONE jet system.

- 'Hydro 14' (14-jet system)—please complete Step 2A.
 'Hydro 20' (20-jet system)—please complete Step 2B.

2A
