

# MULTIPOINT ORDER FORM PROFESSIONAL HYDROTHERAPY SYSTEM

# 36

# 36 JETS

## HOW TO COMPLETE THIS ORDER FORM

Follow the numbered steps below.

Once completed, fax the form to (02) 9518 0216 or scan and email to sales@bathe.net.au

## IMPORTANT CONSIDERATIONS

### Pump installation

Pump will not fit completely under the rim of the bath. Pump is supplied detached and must be mounted below top jets and above suction intake to ensure pump primes when bath is filled and drains when bath empties. It is recommended that the pump be located less than 2 metres from the bath. 10 amp supply required.

### Each pump dimension

Length 410 mm × Height 245 mm  
× Width 150 mm each.

### Control positions

These are determined by Bathe and will not be accepted if marked on this order form unless item 1(i) or 1(ii) applies.

Note: On/Off controls are not able to be rim-mounted on Kaldewei oval-shaped baths and will be supplied detached for off-bath mounting. In this case, the hob must not be more than 30 mm in thickness or should be rebated underneath.

### Overflow

Note: Overflow is normally to front on double-ended designs.

 **Massage Plus jets**  
Spiralling flow

 **Reflexology jets**  
Precise gentle flow

 **Toning jets**  
Wide powerful flow

- 1** (i) Indicate approximate position for 2-pumps (tick ONE box) against the desired bath shape; and  
(ii) If bath is oval shaped, indicate approximate position for off-bath mounting with a 'C'.  
(iii) If bath is undermounted, indicate approximate position on the rim or off the rim of the bath with a 'C'.

- 2** Select ONE installation method.
- Hob-mount  
 Under-mount

- 3** Select upgrade options.
- Multifunctional cushions  
 Multi Bath Filler  
 Bathtub pillow  
 Airspa

**4** Enter store details.
