

# MULTIPOINT HYDROTHERAPY

A professional hydrotherapy massage system for your bath

# WHY MULTIPOINT HYDROTHERAPY?

## **A PERSONALISED HYDROTHERAPY MASSAGE SYSTEM TAILORED TO YOUR BODY**

At Multipoint we design and build unique personalised hydrotherapy massage systems for you. Choose any Kaldewei bath from [www.bathe.net.au](http://www.bathe.net.au) and we help you to identify the ideal massage system for your needs. By tailoring the massage system to your body we can turn your bathroom into a sanctuary of health, relaxation and rejuvenation.

Relaxing in your bath, your unique Multipoint System is designed to massage your body, relieving tension, melting away stress and assisting in the process of renewing cells which are damaged or strained during work, exercise or sport or through conditions associated with ageing.

Multipoint Hydrotherapy Systems are designed to ensure the specific massage effects of the uniquely designed Multipoint jets effectively target the body's trigger points to promote a sense of well-being and relaxation.

## **THE BENEFITS TO YOUR BODY AND MIND**

### **Improved muscle tone and mobility**

The water flow from the jets massages and relaxes your muscle tissue improving the mobility of your joints and muscles relieving cramps, stiffness and soreness.

Overall muscle definition and tone can be improved by the stimulating massage, making Multipoint personalised hydrotherapy an excellent addition to your fitness and wellbeing regime.

### **Prevention and Recovery from Injuries**

Regular hydrotherapy is a proven method of reducing recovery time from sporting and other injuries. Weakened muscles and ligaments are strengthened by the customised massage effect.

### **Increase blood flow and stimulation of lymphatic system**

Circulation is increased bringing fresh oxygenated blood to your muscles and joints. By stimulating the flow of lymph, the correct fluid balance in the tissues and blood is achieved.

### **Cleanses and conditions the skin**

The unique water massage over your skin stimulates the sweat glands, flushing out unwanted grime in your pores leaving your skin more elastic and youthful.

### **Benefits from acupressure and reflexology**

Certain areas of the body and especially the back and feet correspond to various organs and nerve pathways. Customised massage on these specific areas can help relieve certain health conditions.

## **CUSTOM MEASURING**

Professional sports people or anyone looking to achieve the maximum benefit from their hydrotherapy spa system may choose to tailor the Multipoint System to their individual requirements.

As we are more aware of the importance of fitness for a healthy life, we must also be aware of the stresses and strains that this places on our bodies. Multipoint helps to promote muscle recovery and prevents subsequent stiffness. Correctly positioned jets will help to maintain muscle tone and suppleness and give relief to tense, painful or injured muscles.

An authorised Multipoint physiotherapist will conduct a personal measurement of your back and spine so that each Multipoint jet can be strategically placed to provide personal trigger point hydrotherapy massage.

We will work with these patterns and measurements to achieve a tailor made massage system to suit your personal needs and budget.

## **HYGIENE AND SANITISATION**

Only Multipoint Systems can assure you of a safe and hygienic spa environment.

All Multipoint Systems are fitted with the exclusive sanitising portal that provides direct access to the jets and system to allow their proper sterilisation.

All systems are plumbed with rigid piping (to conform with Australian standards) to ensure all water is fully drained and the system is left dry between usages.

Both these features are essential in order to provide a hygienic environment for your wellness and peace of mind.

# MULTIPOINT SYSTEMS

## DESIGN OF JETS

To enable a Multipoint System to be tailored precisely to your body, we designed special jets that are able to be positioned anywhere in the bath without compromising your comfort.

These powerful micro-sized jets, with a unique range of functions, deliver specific and different water flow and massaging effects for each area of the body.

While the Multipoint jets are small, the jet body is specifically designed to give a more powerful massage effect than many larger whirlpool jets.

### Massage Plus jet (spiralling flow)

The jets spiral a powerful water flow, to provide a sensuous kneading of the back and shoulders, relieving muscle tension and allowing the body's central 'framework' to relax.

### Toning jet (wide powerful flow)

Toning jets give a vigorous massage for areas such as hips, thighs and calves. These are especially beneficial in the treatment of painful or injured muscles, as a warm-up prior to exercise, or as a general skin and muscle toning aid.

### Reflexology jet (precise gentle flow)

Reflexology jets are essential in treatment of localised pain, including headaches, muscle injuries and strains.

## 30, 36 AND 40-JET PROFESSIONAL SYSTEMS

For the ultimate in hydrotherapy spa treatments in the comfort of your own bathroom, Multipoint 'Professional' Hydrotherapy Systems are the latest development of this world-leading technology.

The Professional Systems upgrade your experience with a choice of 30-, 36- and 40-jet patterns to enhance the health benefits. Hydrotherapy works on the principal of Trigger-Point Therapy—the Professional Systems target more points of the body simultaneously, offering even greater physical benefits.

# UPGRADE OPTIONS

## AIRSPA

The Bathe Airspa is a stimulating experience created by thousands of air bubbles stroking the skin as they rise to the surface.

Airspa may be chosen in addition to your Hydrotherapy System as a 'dual system' and is the only spa system suitable for freestanding baths.

## AIR-BOOST

Air-Boost provides adjustable strength from vigorous to powerful.

For a restful and relaxing bath, the gentle setting allows the flow from the jets to be in calming mode.

When extra boost is needed the setting can be changed to an extra powerful flow that will immediately increase circulation and stretch muscle tissue.

## MULTIFUNCTIONAL CUSHIONS

The new multifunctional cushions from Kaldewei add even more comfort to your relaxing bath, offering you different options: as a footrest or placed below the thighs, they keep you from sliding downward in larger baths; as a neck rest or, placed at the sides of the tub, they give you a place to rest your arms.

## MULTI BATH FILLER AND OVERFLOW OUTLET OPTION

A Pop-up waste and overflow unit is supplied as a standard inclusion on most models. A Multi overflow including the bath filler function is an option available for all models.

**Note:** Australian Standards certified

## BATHTUB PILLOW

The Kaldewei bathtub pillow is wonderfully soft and flexible, and so it adapts perfectly to the shape of your neck and bathtub.

The delightfully soft, skin-friendly fabric cover is machine washable. A generous 50×30 cm, the pillow also supports the shoulders and allows a variety of head positions. With a valve for easy control of the level of hardness.

# HOW TO ORDER

1

## CHOOSE YOUR BATH AT [www.bathe.net.au](http://www.bathe.net.au)

The full selection of Kaldewei baths available throughout Australia can be found on [www.bathe.net.au](http://www.bathe.net.au)

Find your nearest stockist on this website by going to 'Store Finder'.

2

## SELECT THE ORDER FORM FOR YOUR PREFERRED JET PATTERN

Order forms can be found on in the spa section of [www.bathe.net.au](http://www.bathe.net.au) or obtained from your Multipoint retailer.

Establish your requirements and which system best suits your needs with a Multipoint trained retailer.

- A fully customised hydrotherapy system can be built to order—use order form 'CUSTOMISED HYDROTHERAPY SYSTEM'.
- Professional Systems available in 30-jet, 36-jet or 40-jet configurations—use order form 'PROFESSIONAL HYDROTHERAPY SYSTEM'.
- A set configuration of 14-jet or 20-jet Package systems can be ordered—use order form 'HYDRO 14-JET AND 20-JET SYSTEMS'.

3

## CHOOSE YOUR UPGRADE OPTION

Select your upgrade option requirements from page 6 and tick boxes on the relevant options listed on your spa order form.

4

## COMPLETE THE ORDER FORM

Discuss your order form with your Multipoint retailer who will check that all information is complete.

If you are ordering a Customised Hydrotherapy system, we will arrange a visit to an authorised Multipoint physiotherapist for your measuring.

Once all information has been finalised, allow two to three weeks for your spa to be created and tested ready for delivery.

Your Multipoint retailer will be notified when your hydrotherapy spa is ready and delivery arrangements can be made.
